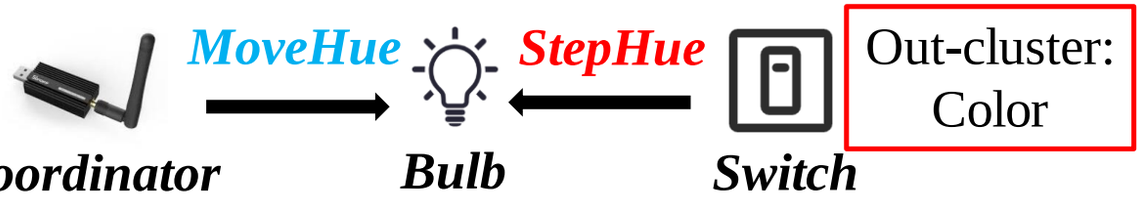
Cross-device Correlation



The following is the description of a **{layer1}** message **{message_name1}**.
{message_format1}

Please determine whether the above message can act on the same device attribute as each message in the following message list.

The following are the descriptions of each **{layer2}** message in the message list **{message_names}**. **{message_formats}**

If so, return the **attribute name**, otherwise return null. The answer should be organized in **JSON** format. The following is a example of a message MoveHue and a list of messages [StepHue, MoveColor].
{"MoveHue, StepHue": "current_hue",
"MoveHue, MoveColor": null}
