AI

The following is the description of the message **{message_name1}**.
{message_description1}
The following is the description of the message **{message_name2}**.
{message_description2}

Please determine if the above two messages can work together on a device attribute. If so, return the **device attribute** and the corresponding **message payload**, otherwise return null.

The answer should be organized in **JSON** format. The following is a example of the results of two messages: Move Hue and Step Hue.
{"Related_Attribute":"current_hue",
"Move_Hue_Payload":{"Move_Mode": 0x01, "Rate": 0x10},
"Step_Hue_Payload":{"Step_Mode": 0x01, "Step_Size": 0x14,
"Transition_Time": 0x01}}

(a) The prompt to give the attribute correlated with two messages.

The following is the device state list.
{state_list}.

Please determine which attributes in the above state list the message **{message_name}** can act on.

The answer should be organized in **JSON** format. The following is a example of the result.

{"Related_State_Attribute":
["current_hue", “current_saturation"]}

(b) The prompt to give the state attributes correlated with a message
